Dear Mr. Progulske:

I appreciate your review and response to the draft Environmental Element Scope of Work of the Comprehensive Study of the Apalachicola-Chattahoochee-Flint and Alabama-Coosa-Tallapoosa River Basins. I agree that an evaluation of potential land use changes associated with flow/stage alterations should be included. I have incorporated your comments in the revised scope which will be reviewed by the Technical Coordination Group (TCG). The revised scope, after TCG approval, will be mailed to you along with the schedule of public workshops. I look forward to your continued involvement in the Comprehensive Study process.

Sincerely,

Theodore Hoehn  
Office of the Secretary
