

**JOB TITLE: Field Biologist**

The Institute for Regional Conservation

[www.regionalconservation.org](http://www.regionalconservation.org)

PAY: \$15/hr, 30 hours/week

Period of Performance: February-November 2010

The Institute for Regional Conservation (IRC) is currently accepting applications for a Field Biologist position. The position is open to those with significant professional interest and experience in the science and practice of environmental conservation and ecological restoration.

Duties will include vegetation sampling in wetlands and coastal uplands in Everglades National Park, greenhouse experiments and care of nursery-grown plants, and other duties as assigned.

**Applicants should:**

- have prior biological fieldwork experience, emphasis on South Florida a plus
- have basic knowledge on major South Florida ecosystems, specialized knowledge of South Florida plant species a plus
- be willing and physically able to work long hours in tough field conditions
- be a highly motivated, cooperative team-player with strong interest in working towards IRC's mission
- be routinely punctual and responsible
- have education in a closely related field (biology, environmental studies, etc.)
- be familiar with basic computer programs (Word, Excel), experience with Access and ArcGIS a plus
- be able to operate or quickly learn to operate sub-meter accuracy GPS units

**Please forward resumes or CVs to Keith A. Bradley at [Bradley@regionalconservation.org](mailto:Bradley@regionalconservation.org)**
